

CAI White Paper on ADR Presented to Canadian Condo Institute & Members of Parliament

CAI's G&PA Department prepared a white paper on requirements for alternative dispute resolution (ADR) in community associations in the United States for our friends in the Canadian Condo Institute. The paper provides an overview on dispute resolution requirements imposed by state legislatures in key states across the USA. As part of their effort examining mechanisms to address homeowner disputes with community association boards, the Canadian Condo Institute presented the paper to key members of Ontario's Parliament. You can [review the white paper here](#).
