

## **CCAL and CAI Attorney Member Surveys Guide CCCAL Board**

The College of Community Association Lawyers (CCAL) Board of Governors met on March 10 and 11 to map out the future of the College. Founded in 1993 to recognize excellence in the practice of community association law, the College has had a growing role in shaping the law and the business environment for community associations. The College's premier event is its sponsorship of the Annual Law Seminar which has seen attendance growth over 50% in the past five years.

To prepare for the planning session the CCAL Board surveyed the 122 members of the College as well as all attorney members of CAI. The goal of the surveys was to gather data on what priorities both groups have in terms of resources provided by the college. The results of the CCAL member survey can be viewed [here](#) and the results of the CAI Attorney member survey can be viewed [here](#).
