Alabama Community Associations

facts & figures

» Approximately 234,000 Alabamians live in 95,000 homes between 2,000 and 3,000 community associations.

» These residents pay $429 million a year to maintain their communities. These costs would otherwise fall to the local government.

» 7,900 Alabamians serve as volunteer leaders in their community associations each year, providing $6.5 million in service.

» The median home value in Alabama is $137,200. Homes in community associations are generally valued at least 4%* more than other homes.

» By 2040 the community association housing model is expected to become the most common form of housing.

94% percent say their association’s rules protect and enhance property values (71%) or have a neutral effect (23%).

74% percent of residents oppose additional regulation of community associations.

89% percent of residents rate their community association experience as positive (70%) or neutral (19%).

64% percent always or usually vote in national elections and 76% always or usually vote in local and state elections.

Community associations are private entities, not governments. Residents vote for fellow homeowners to provide leadership—making decisions about operation, administration and governance of the community.

Assessments paid by association members cover the costs of conducting association business—such as common area maintenance, repair and replacement, essential services, routine operations, insurance, landscaping, facilities maintenance as well as savings for future needs.

CAI supports public policy that recognizes the rights of homeowners and promotes the self-governance of community associations—affording associations the ability to operate efficiently and protect the investment owners make in their homes and communities.
