### **Community Associations Institute**

Community Associations Institute (CAI) is an international membership organization dedicated to building better communities. With more than 50,000 members, CAI has 64 chapters worldwide, including Canada, the Middle East, and South Africa, and relationships with housing leaders in several other countries. CAI members include association board members and other homeowner leaders, community managers, association management firms, and other professionals who provide products and services to community associations.

CAI provides information, education and resources to the homeowner volunteers who govern communities and the professionals who support them. CAI advocates for and represents the 77.1 million people living and working in America's 369,000 community associations (homeowners associations, condominiums, and housing cooperatives).

### **2025 Congressional Advocacy Summit**

CAI is thrilled to host our annual CAI Congressional Advocacy Summit on Capitol Hill in Washington, D.C. on November 6, 2025. This exciting event is exclusively for CAI members. Together with participants, we will meet with members of Congress and their staff, advocate for industry federal legislative priorities, and represent the interests of community association (homeowners associations, condominiums, and cooperatives) and their residents nationwide.

CAI's 2025 Congressional Advocacy Summit is the premier advocacy event of the year for the community association housing model! Informative and inspirational, the 2025 Congressional Advocacy Summit offers advocates an opportunity to speak with federal lawmakers and their staff face-to-face and help advance CAI's public policy priorities.

We also arrange expert presentations for participants on a variety of critical topics influencing the community association industry and network with their peers and business partners.
