FREE Online HOA/Condo Webinar: Informing and Empowering Homeowners

CAI is committed to helping you support the constituents you serve, which is why we developed [Community Association Living: An Essential Guide for Homeowner Leaders](#). The free, easy-to-follow online course available to all homeowners outlines the fundamentals of community association living. We encourage you to share it with constituents when questions and concerns arise regarding community associations. As the leading organization for community association board members, managers, and business partners, CAI is dedicated to promoting strong, well-educated community leadership and fostering constructive relationships with all decision makers.

By empowering legislators and homeowners with practical knowledge and accessible guidance, CAI aims to foster more transparent and collaborative community associations that benefit your constituents and the broader neighborhoods you represent. We encourage you and your staff to share this course with your constituents who have questions about the community they live in.

To further support your work, CAI offers free resources tailored specifically for policymakers through our [Legislator Corner](#), along with updates on [2026 advocacy priorities](#) and legislative activity via the [CAI Advocacy Blog](#).

Connect with CAI

As you consider legislation impacting community associations, we encourage you to view CAI as a partner and resource. Our [federal and state legislative action committees](#), state chapters, homeowners, community board members, community managers, attorneys, and other professionals are available to help your office navigate issues affecting community associations in your state.
