

## 2025 CAI Nebraska Legislative Session Report

CAI's members, partners, and staff actively advocated on behalf of [approximately 107,000 Nebraskans living in 42,400 homes in nearly 2,000 community associations across the Cornhusker State](#) during the 2025 state legislative session. The legislative session began on January 8, and adjourned on June 9, 2025. Below is a brief overview from the 2025 Nebraska State Legislature:

### **LB 360 - PROVIDE RESTRICTIONS ON THE REGULATION OF POLITICAL SIGNS BY HOMEOWNERS ASSOCIATIONS**

CAI worked to amend this bill, which would have created new rules for associations to follow regarding the placement of political signs by homeowners, while preserving the right of associations to limit the number of signs and prohibit signs in limited situations. Situations where a sign may be prohibited include obstructions to traffic signs, containing profanity, and is larger than 4x6 feet.

CAI sent in testimony requesting that the bill be amended to be less prescriptive and more in line with the intent of allowing community associations to create reasonable rules and restrictions which best fit their own situation. An online advocacy campaign asking that the Judiciary Committee consider CAI's amendments went out to advocates across the state, and saw 32 messages sent to legislators.

**Status: Successfully DIED in Committee.**

### **LB 137 - PROHIBIT CERTAIN RESTRICTIONS ON SOLAR ENERGY DEVICES AND POLLINATOR GARDENS AND PROVIDE A CAUSE OF ACTION**

This bill would have prohibited associations from placing any restrictions on the installation of solar energy devices or pollinator gardens on an owner's property, charging a fee for the installation of a wind or solar device, and would have given homeowners a civil cause of action in cases where an association violated the bill.

CAI **opposed** this bill as introduced, and sent in testimony requesting that language be added to allow for reasonable rules and restrictions, allow associations to charge normal application fees, and expressly prohibit the installation of solar devices or pollinator gardens in common areas without the authorization of the association. An online advocacy campaign asking that the Judiciary Committee consider CAI's amendments went out to advocates across the state, and saw 32 messages sent to legislators.

**Status: Successfully DIED in Committee.**
